Ohio Man's Candidacy Said to Be a Fact

PITTED AGAINST MCKINLEY

Meeting Held in This City With Leading Ohio Democrats Said to Have Decided That He Is the Best Equipped Man to Make the Fight—Complications It Causes.

Ex-Gov. James E. Campbell of Ohio may now be considered a formal candidate for the Democratic nomination for the Presidency. He will be in the chair with Olney, Morrison, Stevenson, Whitney and Matthews.

The meeting which settled the question of Gov. Campbell's candidacy was held in a little party in the Eldridge House Friday. There were present at this gathering besides the Governor himself, Senator Calvin S. Brice, the two Democratic Congressmen from Ohio, Mr. Borg and Mr. Layton, Joseph J. Downing, collector of the port for the southern district of Ohio, Postmaster Brown of Cincinnati and Louis Bernard, the Democratic boss of Cincinnati.

McKINLEY'S BEST FOE

It is said that the gentlemen present all agreed that the ex-governor was the very strongest man to lead the Democratic party in the fight in 1896 and that he should have the support of his State for the nomination.

Senator Brice is said to have made a speech, in which he claimed that if Mr. Campbell was pitted against McKinley, who would unquestionably win the nomination on the silver question, Democratic prospects would be increased 40 per cent. The Senator, it is claimed, made a statement to the effect that any candidate of either party who would favor the revoking of the tariff question and would at the same time refuse to come out in favor of sound money was surely doomed to defeat.

Ex-Gov. Campbell's candidacy will certainly create a new impetus to the Democratic situation.

MAKES A PRETTY FIGHT

With Olney backed by all of New England and a portion of the Middle States, Matthews with the solid vote of Indiana, and a following in other States, Whitney with the seventy-two votes of New York, and Morrison with Missouri, and possibly Illinois, and Stevenson with a big vote from the south and southwest, the Democratic platform would stand on a very strong basis.

There was a story at the Capital that high-ranking officials recently told a friend that if McKinley was the nominee of the Republican party he believed that if the Democratic candidate would stand on a platform of sound money and no revoking of the tariff question the great Napoleon would go down in defeat.

The ex-Secretary of the Navy also, it is said, intimated that a man of his own size and dimensions might be the proper person for the Democrats to put up in such an event.

Chicago, March 14.—One of the most extensive and successful swindles in the history of racing in the United States was perpetrated on the pool room keepers of the country today.

The conspirators had agents in every city where gambling on racing is carried on, and the money was placed with a platform of wire, which indicated that the winners were backed with all the capital necessary to make the fraud a gigantic success.

Their plan was carefully laid, and it was followed by the fact that money was distributed by telegraph from New Orleans and Chicago, twenty-four hours in advance.

The last race at New Orleans was won by a horse named "The Prince of Wales." The race was a very close one, and the money was placed with a platform of wire, which indicated that the winners were backed with all the capital necessary to make the fraud a gigantic success.

BABY SLEPT AS PHIL DIED

Colored Lad Killed Himself and Fell Across the Crib.

WAS IT SUICIDE OR ACCIDENT

Young Man Was Found Dead With an Old-Fashioned "Pepper Box" Pistol Grafted in His Hand—Coroner Has Been Notified and Will Investigate the Case.

William Young, colored, died from a pistol shot in the head last night and his bleeding form fell across the bed on which his infant niece was sleeping.

The child slept through the tragedy. The crash of the weapon, the fumes of the burnt powder, the groan of the dying man, the waiting of friends, the trail of the police and the roll of the ambulance, which removed the body to the morgue, did not break the slumber of tiny Bella Schenck, the five-year-old niece.

It appears never will be known whether the shooting was intentional or accidental, though there is practically nothing to suggest the theory of suicide. He was confronted with his old, young, and vigorous. His friends believe that he was examining the pistol when it was discharged.

After the fatal shot he lay on the bed, his face turned toward the wall, his arms crossed, and his hands clasped, as if in prayer.

He was not known to have any bad habits, and stood well with the police on the beat in which Freeman's alley is. His only friends were his mother, Mrs. Freeman, and his sister, Mrs. Freeman.

TALKS OF PEACE WHILE PREPARING FOR WAR

Spanish Minister at London Takes an Optimist's View.

Meanwhile Spanish Armies Are Active Day and Night.

SIX SHIPS BEING FITTED OUT

Count Valenciano Has Been in Washington and Thinks He Understands Senatorial Oratory—He Declares Maceo Hopes to Establish a Negro Republic in Cuba.

No Weak Point Will Be Found in Case Hostilities Result From the Action of This Country—Popular Loans Raised to Help the Government.

By Cable to The Times.
(Copyrighted by James Gordon Bennett.)

London, March 14.—I had today a conversation with Count de Casa Valenciano, Spanish ambassador in London, which further confirms the impression prevailing in the highest Spanish circles, that the action of the United States in Cuba is due to a misunderstanding of affairs in Cuba.

I may say at once that his excellency takes an optimistic view of the situation. He does not believe in the probability of any rupture between Spain and America, and Count de Casa Valenciano speaks personal knowledge not only of the Spanish but of the American people.

"I never doubted from the first," he said, "that this excitement would be transitory. You see, I know America. I have been there twice. I was at Washington in 1854. Our minister at that time being M. Cacho, who is still alive and a member of the Madrid Academy, like myself."

CALEB CUSHING'S NON-MOT.
"Well, Mr. Caleb Cushing was United States attorney general at the time. The Nebraska bill was before the public and strong language was the order of the day—in fact, never were such language, such threats, and such scandalous accusations as were heaped forth by party men interested in the question, whether Nebraska should become a slave State or not."

This was now to Mr. Cacho and myself. So one day Mr. Cacho asked Mr. Cushing whether he thought these violent proceedings might lead to civil war. "When you know my countrymen as well as I do, you will find no grounds for such a charge," he said. "Cavaliers will exercise his right of free speech."

APPLIED THE SAYING.
"His excellency proceeded to apply this interesting anecdote to the present case. 'Even the noise,' he said, 'in this Cuban business is not very far from the action of the United States Senate is not far from as menacing as President Cleveland's language toward England on the Venezuela question, and yet you can see from the papers that already it is repudiated in influential quarters.'"

Count de Casa Valenciano then referred to the Grand decision on the question of intervention, and declared that he was surprised to find that there was an unanswerable reply as they were in 1872.

"The Cuban insurgents," he continued, "don't possess a single one of the qualifications which President Grant says down as essential to a rebel chief. They are not patriots. They possess no towns or factories, or centers of industry, or even recognized tribunals."

MACRO'S REAL MOTIVE.
"In fact, it will give an idea of the peculiar character of this rebellion which I tell you that the three recognized political parties in Cuba—the Constitutionalist Union, the Reformist, and even the Unionists, who are supposed to desire the independence of Cuba—are all on the side of the Spanish government."

And he said that the real motive of the rebellion is Maceo, a military, and his real aim is to drive out all the whites and form a second Haiti on the island.

Here his excellency handed me a Spanish pamphlet printed in New York and entitled, "Cuba free, the providential mission and program of Maceo." It was a very interesting and well-written work.

Count Valenciano expressed himself as confident in the ultimate success of the measures adopted by Gen. Weyler. The small Cuban army, he said, was being retrained in the form of military expeditions.

He said he had cut off the Spanish government had obtained the latest statistics of the Cuban army. It was a very small army, but it was being retrained in the form of military expeditions.

DEFENSES GEN. WEYLER.
He said: "Our present military of war, Gen. Alvarado, is a man of stupendous energy and genius for organization. When I tell you that within the last twelve months Spain has shipped 120,000 men to Cuba, and that the Spanish army is now being retrained in the form of military expeditions, you will see that the Spanish government is not to be trifled with."
